## OBJECTIVE:

Motivated and detail-oriented professional with expertise in cloud computing, software development, and data analysis. Passionate about designing scalable cloud solutions, building interactive web applications, and leveraging data insights to drive business decisions.

## HIGHLIGHTS OF QUALIFICATIONS:

- Proficient in cloud platforms (AWS and Azure) and Infrastructure as Code (Terraform, Ansible, CloudFormation).
- Skilled in front-end technologies including HTML, CSS, JavaScript, and PHP; familiar with React.js.
- Experience with data analysis using Python and SQL.
- Proficient in Linux/Unix, system administration, and networking concepts (TCP/IP, DNS).
- Hands-on experience with CI/CD tools and containerization (Docker, Kubernetes).
- Strong problem-solving skills with a focus on cloud security, high availability solutions, and optimizing web performance.

## TECHNICAL SKILLS:

- Programming Languages: Python, JavaScript, CSS, PHP, SQL, Bash, C, Java, R
- Cloud Platforms: AWS, Azure
- DevOps & CI/CD: GitHub Actions
- Infrastructure as Code: Terraform, Ansible, CloudFormation
- Front-End Technologies: HTML, CSS, JavaScript, PHP, React.js (Familiar)
- Databases: MySQL
- Version Control: Git and GitHub

## EDUCATION:

- Post Graduate Diploma in Cloud Computing  
George Brown College, Toronto, ON  
GPA: 3.9 (First Semester Completed) 2024-2025
- Master of Science in Computer Science Software  
Kurukshetra University, Haryana, India  
GPA: 8.5 (Three Semesters Completed) 2022-2025
- Bachelor of Science in Computer Science  
Kurukshetra University, Haryana, India  
GPA: 7.6 2019-2022

**PROJECTS:**

- **MS 365 Implementation** – Set up user management, security policies, and compliance.
- **MS 365 Security & Compliance** – Configured security policies and audit log.
- **Cloud Solutions Implementation** – Deployed and managed cloud services on AWS, Azure, and GCP, optimizing infrastructure performance.
- **AWS System Monitoring & Troubleshooting** – Set up AWS CloudWatch logs, performed log analysis, and resolved system issues.
- Music playlist (Web and Data Structure)
- Discussion app (Web Development)

**CERTIFICATIONS:**

- C Language April 2021

**PROFESSIONAL EXPERIENCE:****Cashier****Nov2024-Currently****Williams Sonoma, Toronto, ON**

- Handled transactions quickly and accurately, even during peak times, ensuring a seamless checkout experience for customers.
- Provided exceptional customer service and adapted to changing priorities with ease.
- Regularly exceeded sales targets, contributing to the store's success.

**Web Development Intern****June 2023- Sept2023****Code Quotient, India**

- Built dynamic websites using HTML, CSS, and JavaScript, making them more engaging and user-friendly.
- Worked closely with team members to deliver projects on schedule and introduced reusable code to save time on future tasks.
- Helped improve website usability by 30%, enhancing the overall user experience.

**Computer Operator****June 2021-June 2022****Infowiz, Chandigarh, India**

- Entered and managed data with precision while troubleshooting technical issues to ensure smooth operations.
- Improved record-keeping and streamlined workflows, making daily tasks more efficient.
- Played a key role in keeping systems running without interruptions.

**VOLUNTEER EXPERIENCE:****Math and Physics Tutor – Self Employed, India****March 2020-March 2021**

- Schooled high school students in the one-to-one format; their focus was on deepening an intimate comprehension of math and physics.
- Tailored lessons to ensure learning by individual students, thus breaking the confidence deficit barriers and performance deficits.
- Students improved significantly in their grades, while the subjects themselves were made more interesting.
